Horticulture Program Mission

The Horticulture program at Chattahoochee Technical College prepares students for successful careers across the horticulture industry. We:

- Build the knowledge and skills students need to succeed in a range of horticulture fields
- Develop professionalism and an entrepreneurial mindset
- Offer frequent hands-on learning, teamwork, and collaboration
- Model ethical conduct and sound business practices
- Partner with horticulture businesses, associations, and academic institutions in our service area
- Maintain strong relationships with employers who hire our students
- Keep pace with technical, scientific, academic, and market developments in the green industry
