Browse through the subheadings under each of the main headings to find all sorts of information about Chattahoochee Tech.

You'll probably notice that each **student form** is available as a link on the web page that pertains to that form! Unrelated forms are no longer grouped together on a single web page.

Oh, by the way...

You'll notice continually **rotating images/pictures** on the front web page. If you click on an image/picture, you'll usually get more information pertaining to that image. If you click on the arrows over the rotating images, you'll simply scroll through all of the images that are currently posted.

New Class Schedule format:

Current Students > Class Schedule (under Student Resources)

You can now view multiple classes and campuses at the same time. Plus, if you hover your mouse over any course number, that course's information will appear!

New Academic Calendar format:

Current Students > Academic Calendar (under Student Resources)

Hover your mouse over the days in yellow, and a list of all events for that day will appear.

You can search for specific pages by **keywords** using the Google search box at the top of the page. Some keywords are usable now; more are being added. *The keywords that work right now are...*

- | | |
|----------------------------|---------------------------------|
| lib = library | reg = registrar |
| bw = BannerWeb | hss = high school students |
| camploc = campus locations | intlcntr = international center |
| eml = student email | tutin = tuition |
| apos = programs of study | admiss = admission requirements |
| accal = academic calendar | |

A **mobile version** of CTC's website is currently in the works.

Check this out...

Some of the same links can be found on more than one main page.

Here's an example of what we mean...

On the **Current Students** main page, there's a link to the *Library*.

On the **Prospective Students** main page, there's a link to *Admissions*.

Both the **Current Students & Prospective Students** main pages contain the same link to *Academic Programs of Study* (because both current students and prospective students will likely want to view that information)!

Remember, the new website was designed for **who you are** and **what you need to know!**

Want to get back to the front web page from anywhere on the site? Just click on the "business card" at the top of the page, and Voilà!, you're there.

Chattahoochee Tech's Director of Digital Communications, Greg Starks, tells us why so much effort was put into designing and developing our new website, "We wanted to make the site easier to navigate and locate information while having fun with effects and vivid colors throughout the site. The style of the site is consistent with current web design trends that our research tells us will be more appealing to students." He points out that the website has many new features, such as embedded videos, access to social media, interactive campus maps, and more. Also, the site is simpler to use with most important information being only one or two mouse clicks away from the home page.

A notable improvement to the previous site is the front page. From that page, users can quickly access CTC news, announcements, and sports information by clicking on white "index cards." The front page also has a window that will display important college information such as registration deadlines, college events and weather alerts.

Greg notes, "As with anything new, it will take a period of time to become acclimated to the new website. I'm confident that once users get more comfortable with browsing through the site, they will love the easy-to-get-to and intuitive placement of information."

Remember to look at Quicklinks (top of page). You might find what you're looking for!

Drafting Technology Students Design a Bridge (no kidding)!

Back in September 2010, six Drafting Technology students (Mr. Brad Cooper instructing at Appalachian, Mr. Randal Reid instructing at Marietta) represented CTC in the **Busbee Frey Bridge Design Contest** (an architectural enhancement competition) along with Kennesaw State University and Southern Polytechnic State University students. According to Mr. Reid, Cobb County DOT and the Town Center Area Community Improvement District asked students to develop and propose architectural/context-sensitive design elements for a bridge over I-75 in Kennesaw (Busbee-Frey Connector). The winning bridge design would blend aesthetic, historic, and environmental values with safety, maintenance, and performance goals. Students were to make sure the bridge “fit” into the existing area—and not just be “a big block of cement,” according to Mr. Cooper.

The 18 students who participated in the contest were divided into six teams of three. *Each team had one student from each school; therefore, the six CTC students were competing against each other as well as against students from KSU and SPSU.*

The six teams had about one month to work together before presenting their ideas to a panel of judges composed of college presidents, a Federal Highway Administration representative, Georgia DOT officials, county officials, and representatives from the Town Center Area Community Improvement District. Consulting engineers and Cobb DOT officials served as technical advisors to the student teams. In addition to gaining valuable

industry experience, the winning team would receive a cash prize and have their names displayed on a plaque that would be installed on the bridge.

CONTEST RESULTS

These two CTC students were *on the winning teams*...

Lewellyn Payne (first place) & Seth Arthur (honorable mention)

Each first-place team member (including Lewellyn, of course) received \$250; a plaque was placed on the completed structure in recognition of the winning “gateway interpretation” design. Seth and his team members received \$100 each.

All contest participants (students, faculty, and judges) presented the winning design to the Cobb County Board of Commissioners on November 23, 2010.

The director of Cobb County’s Department of Transportation, Faye DiMassimo, had high praise for all student participants: “We were enormously pleased with everyone’s efforts in this project and hope it proved to be a valuable professional, educational, and life experience for all.”

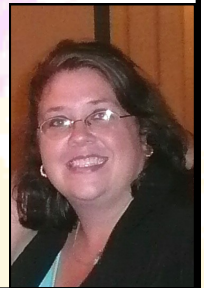

All of us at CTC extend a **heartly congratulations** to all of our student participants for representing the school in such an outstanding way!

THE SIX CTC STUDENT PARTICIPANTS:

**SETH ARTHUR, GRAHAM GEDNEY, JOSEPH HONEA
LEWELLYN PAYNE, GREGORY SANDERS, JOEL WRIGHT**

First-Place winner Lewellyn Payne comments:

This was a great learning experience and adventure. We all came from different places and came together to make a great design. I would do this again and I recommend this to anyone: the brainstorm meetings, the working together, and the bridge design completion. We had a great team.

Carole Sanders

with fundraising efforts to benefit the March of Dimes. After undergoing a complex interview and application process, Carole

Carole Sanders, *Accounting* student and Paulding Campus Phi Beta Lambda (PBL) President, has been appointed to Phi Beta Lambda’s Southern Region Action Council by the Phi Beta Lambda National Officer Team. Her duties will include assisting with membership and recruitment for the State of Georgia and surrounding states, mentoring fellow students on building a successful Phi Beta Lambda chapter, and assisting

was chosen out of a pool of applicants from two- and four-year colleges throughout the southeast. According to Nathan Akins, accounting instructor and Phi Beta Lambda chapter advisor, “It is a great honor—for Carole and our college—that she has been chosen to serve in this crucial position in the Phi Beta Lambda organization.” She will serve in the position until June 30, 2011. Chattahoochee Tech PBL currently has chapters at the Marietta and Paulding campuses. PBL students hold monthly meetings, sponsor various service projects throughout the year, and participate in conferences and competitions around the country.

Congratulations Carole on this outstanding achievement!

Covering the Bases

Originating in 2007, the Acworth Police Department's annual event, *Covering the Bases*, supports maintenance of the ball field for children with special needs, **Horizon Field**, in Acworth. Acworth PD officers pledge to walk or run the base paths of **Horizon Field** over a 24-hour period. This year, *Covering the Bases* took place between 7 a.m. on September 18 and 7 a.m. on September 19. According to *Criminal Justice Technology Instructor and Public Safety Club Advisor*, Marcy Hehnlly, 2010 was the first year CTC's Public Safety Club partnered with Acworth PD to help raise money for **Horizon Field**. For more information about *Covering the Bases*, the **Public Safety Club**, or the **Criminal Justice Technology program**, email Ms. Hehnlly at mhehnlly@ChattahoocheeTech.edu. Detailed information about the **Criminal Justice Technology program** is available on the website (www.ChattahoocheeTech.edu).

Criminal Justice Technology student & Public Safety Club President, **Justin Gillis**, enthusiastically stated, "Participating in *Covering the Bases* gave me a great sense of pride to be a part of our Public Safety Club. Helping the kids was the highlight of my experience. This community outreach has left an impact on me that will last a lifetime."

Criminal Justice Technology student, **Jami Chacona**, told us she was inspired by the experience. She said, "Seeing the children playing in this state-of-the-art field, doing what they otherwise would never be able to do, warmed my heart. I am so thankful that I had the chance to participate in such a wonderful event. It was great to know that I was part of something that actually changed children's lives. I feel that I got more out of the event than the kids did!"

CTC was well represented!

AITP Service Learning Project

Computers for Youth (www.cfy.org) sponsors an excellent program geared toward improving children's learning environment at home and strengthening the school-home connection. On November 18, CTC's chapter of the **Association of Information Technology Professionals (AITP)** participated in a service learning project that brought them into a *CFY* warehouse in Atlanta, as students went to work refurbishing donated computers. Dawn Tatum (Computer Information Systems instructor and Information Security program advisor) stated that *CFY*'s Director of IT, Richard Hicks, was "very thankful for CTC's much needed support." Ms. Tatum informed us that CTC plans to remain involved with this outstanding national organization.

If you're interested in getting involved in this worthwhile project, send an email to AITP president, Keith Somers at knsomers@comcast.net or Dawn Tatum at dtatum@ChattahoocheeTech.edu.

Project Participants

Evie Brown	David Ladnak
Paul Buege	Derek Nash
Adam Dubey	Johnathan Neese
Alex Durden	Keith Somers (AITP president)
Mark Esbrook	Matt Stanford
Marcus Gamble	Dawn Tatum (faculty advisor, AITP)
Margarita Gomez	Nick Travis (adjunct faculty)
Michael Giuliani	John Turner
Jimmy Gunter	Jon Wood

Public Safety Club Recognition

The Acworth Police Department's annual event, *Covering the Bases*, helps support the maintenance of the ball field for children with special needs (**Horizon Field**) in Acworth. This is the first year CTC's **Public Safety Club** participated in this fund-raising event (September 18 & 19). According to Cheri Mattox, Dean of Student Support Services, CTC's PSC members were presented a plaque on

November 4 in recognition of their participation. The club raised \$1,500 (of the \$20,000+ raised). The current PSC president, Justin Gillis, is interning with the Acworth PD as a direct result of networking for this event! Major Wayne Dennard is a graduate of CTC's Criminal Justice program.

Left to right: Major Wayne Dennard, Matt Melear, Chris Brown, Vernell Martin, Chief Mike Wilkie, CJT Instructor Marcy Hehnlly, Acworth Mayor Tommy Allegood, Jami Chacona, Eric Morgan, Mike Cheek, Justin Gillis, Captain Tony Bailey

Digital Signage

Greg Starks, Director of Digital Communications, has provided some information about the large flat screens around campus. There's lots to watch as they are put to good use to enhance communication. The screens were put in place to keep students, faculty, and staff apprised of the latest college information. Campus events, club meetings, academic announcements, sports information, etc., will be displayed as warranted. There will also be some static information, such as the college logo and the weather forecast (*customized for each campus*)!

How the screens are arranged...

Most of the time, the screen will be split into three portions. One will display college-wide information. One will display campus-specific information. The third will contain static information (alternating between the college logo and the weather forecast). Information will appear in *changing locations* on the screen throughout the day. There's a scrolling bar (ticker) at the bottom of the screen that will be used to provide additional information of any kind, such as up-to-the-minute updates.

In case of emergency...

Emergency alerts will be displayed on the screen within minutes of upper management's approval. Weather-related alerts (possibly indicating campus closings) are likely to be the most common messages. In the event of a crisis situation (of any sort), instructions will appear on screen (and will be very noticeable!).

The digital signage system is capable of a wide variety of cool special effects that include high-quality video and many different types of colorful animations!

A total of **39** screens have been installed. Here's a breakdown by campus...

Appalachian: 6	Austell: 2	Marietta: 13	
Mountain View: 3	North Metro: 9	Paulding: 4	Woodstock: 2

Media Preferences Survey Winner: James Cersosimo Jr. (Automotive Technology, Marietta Campus)

Prize: Apple iPod

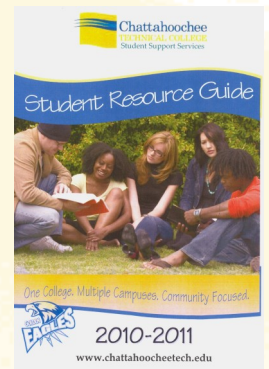

Congratulations James!

Student Resource Guide (You'll want to have this handy!)

Student Support Services has produced a CTC **Student Resource Guide** for 2010-2011. It's an eight-page booklet that's "chock full" of information and will be available on all campuses. Be sure to look for them in *Student Services* or the *Success Center* on your campus to obtain your copy. The guide provides concise information on many services that are available to students along with contact phone numbers and website addresses, where applicable. We do realize that all of our students may not have access to the information on our website. This handy booklet should prove to be an excellent resource that you won't want to be without. (It's pocket sized!)

This guide covers all of the services offered by Student Support Services...

Career Services	Student Success Centers
Financial Aid	CTC Sports
International Student Center	Campus Security
Community Resources (<i>itemized by county</i>)	Bookstores
Disability Services	Quick Reference Guide (<i>by campus</i>)
Georgia Fatherhood Program	...and more!

College-Wide Emergency Alert System

CTC's Director of Public Safety, Chief Willis Wade, has informed us that the college has instituted a college-wide emergency alert system, **e2Campus**, to ensure the timely notification of students, faculty, and staff to emergency situations. The North Metro Public Safety Club has been helping to get the word out about this vital system in addition to providing sign-up assistance. Information about this system is located on CTC's website. Chief Wade has urged all of us to sign up NOW. For more information *and* to access the registration form, click here → <http://ctcweb.chattahoocheetech.edu/current/e2campus/>.

Notes about registering: For "optional groups," check the campuses where you'll likely be found. The "opt-out date" for students should be your projected program completion date.

CTC Involved in Plane Crash Disaster (just a drill!)

According to Criminal Justice Technology instructor & Public Safety Club advisor, Marcy Hehny, CTC's first-time participation in a local community disaster drill was a huge success! Spearheaded by Fire Science Technology instructor, Pat McKay, in conjunction with the Paulding County Fire Department, a mock disaster was staged on September 22 at Poole Elementary to test the preparedness of Paulding County emergency personnel. **Participants:** Poole Elementary, Paulding County School System, Paulding County Fire Department, police, sheriff, ambulance services, emergency management units, hospitals, military personal. This mock disaster drill yielded valuable information that will be used to help all involved respond successfully to real "life and death" situations.

Mr. McKay gave us a little background information: "The Public Safety sector, in all communities, conducts training in all areas related the safety of their citizens. CTC's FST and CJT programs work with all metro Atlanta area police and fire departments. Our programs are always looking for ways to partner with local emergency services, so that our students benefit from a hands-on approach to dealing with some of the real-life tragedies that happen around us. Students are exposed to different departments (potential employers), and those departments view our students as potential employees! This time, Paulding County's emergency services asked our students to team up with them to create and implement a **mock plane crash incident** to better prepare all involved to handle a potential real-life disaster."

Marcy Hehny, CJT instructor, with CTC students

Patrick McKay, FST instructor

What student participants had to say...

Criminal Justice Technology student, **Jami Chacona**, had this to say: "The mock disaster was amazing! It was inspiring to see all of the people who were involved in the planning and execution of the event: fire, police, and EMS personnel as well as high school students and parents. It was very realistic. I enjoyed helping others with disaster response preparation!"

Fire Science Technology student, **Phillip Carroll**, noted: "During the exercise, I was a victim who wasn't badly injured but was very shaken up. Firefighters and National Guard soldiers directed me to the location where ambulatory victims were sent; I watched the response from there. While the engine company was extinguishing the fire, medical responders from the fire department and Clark Ambulance tended to the severely injured. The person who was injured the most was placed on a backboard and lifted into an Air Ambulance. I found this real-life simulation to be very inspiring, and now I'm even more eager to become a firefighter! This experience, in addition to the training I'm being given in the Fire Science program, will look great on my resume—which may help me get hired quickly upon graduation."

Burn victim subsequently "Life Flighted" to WellStar Paulding Hospital

Which CTC students participated in the drill? Jami Chacona, Janis Davis, Tim Jarrett, Veronica Kervin, Vernell Martin, Eric Morgan, Matt Melear

Canton Campus Now Open!

Chattahoochee Tech's eighth campus is now open for business. Currently, staff members are on hand to help new students through the application process, discuss program offerings, and conduct tours of the beautiful 62,500 square-foot building located on 25 acres in *The Bluffs* at Riverstone Parkway.

Be sure to stop by and take a look. Ask your friends and family to come along with you!

1645 Bluffs Parkway, Canton, GA 30114
770-345-0173

What's inside?

- ▶ 9 classrooms
- ▶ 4 medical labs
- ▶ 2 science labs
- ▶ Allied Health lab with 2 classrooms
- ▶ 4 computer labs
- ▶ 3 technology labs
- ▶ 68-seat tiered lecture hall
- ▶ 2 student centers
- ▶ bookstore
- ▶ library
- ▶ student affairs/financial aid
- ▶ business office
- ▶ faculty & staff offices

General Information

- ✓ Building open for faculty & staff in January 2011: help with application process, discuss program offerings, conduct tours
- ✓ Initial course offerings: English, sociology, math, history, biology, psychology
- ✓ Planned course offerings: air conditioning technology, accounting, business administrative technology, drafting technology, management & supervisory development, marketing management
- ✓ Entire facility has wireless capabilities; 693 computers
- ✓ Each classroom is equipped with SMART Board

PBL Students Shine

Congratulations to all of CTC's winners!

The Technical College System of Georgia (TCSG) held its annual **Georgia Fall Leadership Conference** on November 19-21, 2010, at the Waverly Hotel in Atlanta, and CTC students were in attendance. The annual conference provides leadership and networking opportunities for students who are enrolled in TCSG colleges through a variety of workshops and competitions. According to Accounting instructor, Nathan Akins, 2010 was the first year Georgia Phi Beta Lambda added academic and project-based competitions to their conference program. Student members of Phi Beta Lambda (PBL) at CTC made an impressive showing in several competitions against their peers from two-year colleges across the state. At the awards ceremony on November 21, the following achievements were recognized...

Chapter Preparedness Project: 1st place

Phi Beta Lambda Knowledge Test: 1st place, Carole Sanders

PowerPoint Applications: 3rd place, Michelle Fejerang
4th place, Angelica Harris

Stock Market Game: 2nd place

General Business Knowledge: 4th place, Angelica Harris
7th place, Michelle Fejerang

Spreadsheet Applications: 2nd place, Pamela Allison
5th place, Heather Leuck

Even non-coffee drinkers often enjoy the smell of freshly brewed coffee in the mornings! You'll notice that pleasant aroma when you come across the CTC **coffee cart** at the Marietta campus. You'll also notice the eye-catching trendy **Eagles Nest** logo that was designed by Tracie Jackson, *Visual Communications* student. Student Support Services introduced this venture to provide fresh hot coffee, hot chocolate, tea, lattes, and muffins at a good price to students. Future plans? Open an **Eagles Nest** on all campuses! North Metro campus will open an **Eagles Nest** this year.

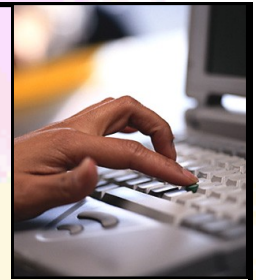

Eagles Nest:
Marietta Campus Atrium (Bldg. C)
Monday - Thursday, 7:30 a.m. - 11:30 a.m.

Menu
Hot Coffee
Lattes
Hot Chocolate
Variety of Teas
Assorted Muffins
All items: \$1.00

Information At Your Fingertips (literally!)

Your assignment's due next week. Just can't seem to find the right information? No problem! Visit the CTC **Library web page** for help. Actually, whether you're looking for information to complete a class assignment or you're just curious about a subject you've heard others talking about, there's probably a database you can search—right from the **Library** page. **Databases you might want to explore...**

And the winner is...

Bradley Griffin
with
Dr. Scott Rule (VP, Student Affairs)
presenting the iPad

The **Quarter-to-Semester Fair**, held at the Marietta and North Metro campuses on November 3, was a fun-filled event to herald the **conversion of the quarter system to the semester system** at all technical colleges in Georgia. Following the conversion in **fall 2011**, Georgia's three major educational systems (K-12, the University System of Georgia, & the Technical College System of Georgia) will have aligned academic calendars.

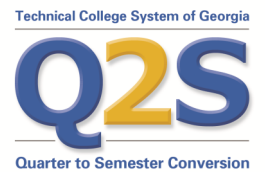

At the Q2S fair, students gathered to enjoy games, candy, and popcorn...plus one lucky student, **Bradley Griffin** (CIS degree program), was the winner of a brand new **Apple iPad**. Bradley also has a 4.0 GPA (and that has nothing to do with luck)! **Congratulations Bradley!**

Ron Newcomb
(Provost & Executive VP)
drawing the winning ticket
assisted by
Tammy Collum
(Executive Assistant)

Of course, **Swoop** was on hand to enjoy the festivities, and a good time was had by all.

For detailed information about the Q2S conversion, go to www.ChattahoocheeTech.edu and click on Current Students > Quarter to Semester (it's under Registrar)

International Student News

At CTC, we take pride in the fact that we've attracted a rich conglomeration of students from many different nations. Ambassador Andrew Young is pictured here with (left to right) **Donrico Brennen** from the Bahamas, **Paula Fernandes** from Brazil, and **Phillip Grant** from Jamaica. According to Greg Moor, International Services/Center Coordinator, this picture was taken on October 7, 2010, at the 6th annual **Legacy Awards Luncheon**, a Chattahoochee Tech Foundation event that honors prominent community members for their outstanding leadership and contributions toward the betterment of society.

The **Atlanta Ministry for International Students** (AMIS) held its **annual luncheon** to honor all international students who are studying in Atlanta area colleges on November 7 at the Woodruff Arts Center. CTC students, **Andreea Biltac**, **Ali Waad**, and **Phillip Grant** attended.

On November 12, 2010, Chattahoochee Tech's **International Club** participated in a **Service Learning project** in connection with **MUST Ministries**, a charitable organization dedicated to providing services to persons and families in crisis. CTC students and staff sorted donated clothing and food items for three hours at the MUST Ministries warehouse.

On November 18, 2010, in honor of **International Student Day** (which was November 17), CTC's international students were honored guests at a **Marietta Kiwanis Club** luncheon. **Andreea Biltac** from Romania represented Chattahoochee Tech as a guest speaker. International students from Southern Polytechnic State University and Life University were also present.

Early Childhood Care & Education Program

Early Childhood Care & Education can be an extremely rewarding and satisfying career. Early Childhood teachers are among the first to shape the minds of young ones and to mold tomorrow's leaders. Be prepared for a wide variety of challenges. Health and safety is always our first concern here at Chattahoochee Tech!

The first five years are a critical period of physical, emotional, social, and cognitive development in young children. It's critical that all early childhood teachers are prepared to support this growth and development of children in their care.

Check out the **Bright from the Start** incentive program:
<http://dec.al.ga.gov/ChildCareServices/FirstProgram.aspx>

You may be eligible to receive up to **\$1,200!**

Degree Diploma Certificates

- Early Childhood Care & Education Associate of Applied Science Degree
- Early Childhood Care & Education Diploma

Certificates:

- Early Childhood Care & Education Basics
- Child Development Associate I
- Child Development Specialist
- Early Childhood Care & Education Exceptionalities
- Early Childhood Care & Education Infant & Toddler Care Specialist
- Program Administration

Where? Marietta, North Metro, Paulding, and Woodstock campuses!

Career Opportunities

There are diverse job opportunities in this rewarding field...

- ★ child care centers
- ★ after school programs
- ★ Head Start programs
- ★ Georgia pre-K programs
- ★ pre-schools

These are the places where our graduates successfully seek employment. Some of our graduates become child care administrators.

WANT MORE INFORMATION? [HTTP://CTCWEB.CHATTAHOOCHEETECH.EDU/PROSPECTIVE/PROGRAMS/](http://ctcweb.chattahoocheetech.edu/prospective/programs/)

Our program helps Early Childhood Care and Education teachers learn how to:

- ★ Prepare high-quality environments.
- ★ Observe children for developmental benchmarks.
- ★ Plan for individualized, developmentally appropriate learning opportunities.
- ★ Assess learning in young children.
- ★ Support families.
- ★ Develop learners who are creative critical thinkers & problem solvers.

Want to work with young children? Personal attributes that may help you succeed...

- Inherent love for children
- Understanding of child development
- Physically active
- Creative
- Ability to nurture & teach
- Ability to organize & lead

High Standards Quality Education

Chattahoochee Technical College's Child Development Lab is accredited by the National Association for the Education of Young Children. Programs that are accredited by NAEYC have voluntarily submitted themselves for review against the most robust and rigorous standards in early education, health and safety.

Spring Preview Day @ North Metro (everyone's invited!)

Mark your calendars and spread the word! Fall Preview Day at the Appalachian campus was a huge success; Spring Preview Day has already been scheduled. It will be held at the North Metro campus on Thursday, **April 14, 2011**. Be sure to encourage your family and friends to visit us that day, so they can see all that Chattahoochee Tech has to offer!
