Bartow County Resource Directory

2007
2009

2	Emergency Numbers
2	Support Groups
3 – 6	Quick Reference List
7 - 53	Alphabetical Listing of Resources
54	Bartow County Government
55 - 58	City Governments
59 - 63	Index

The Bartow County Resource Directory is compiled with every reasonable effort to obtain accurate information that will assist people helping those in need throughout our community. We hope you find it an asset in your efforts. It is not presented to be a comprehensive listing of every resource, as inclusion is voluntary and information and services are constantly changing with the needs of the community. Any omissions or errors are unintentional.

SHRINERS HOSPITALS FOR CHILDREN

950 West Faris Road

Greenville, SC 29605

Phone: 800-237-5055

813-281-0300

Contact: Jerry Collins

Fees: None

Eligibility: Children from birth to 18 years if treatment at another facility would place a financial burden on the family

Area: Nationwide, Mexico, Canada.

Services:

- Network of 19 orthopedic hospitals and three burns institutes, founded by the Shrine, where children receive medical care free of charge.
- Shriners Hospitals offer medical care and services to children including outpatient and inpatient care, diagnostic services, surgery, medical care, casts, braces, X-rays, rehabilitation programs, recreation, and continuation of their education.
- Shriners burns institutes are staffed and equipped to treat patients with acute burns, patients needing plastic or reconstructive surgery as a result of "healed" burns, severe scarring.
- Family-centered care involves the family in the child's care and recovery; parents are taught how to care for the child at home; when possible, room is provided for parent to remain with child throughout hospital stay; family counseling is offered.
- A Shriner who acts as a liaison between the family and hospital sponsors every patient; Shrine Clubs often help arrange and pay for transportation for children and parents to hospitals, many Shriners volunteer to drive for families themselves.
- Research efforts achieve significant progress in

orthopedic and burn treatment, including development of a method of “growing” skin from a sample of a patient’s own skin.
