

# Registration Information

The Testing Center provides multiple ways for students to register for assessments.

1. Appointment Option

Examinees may make an appointment using our online registration system to reserve a seat for a specific location, date, and time. You may make your appointment through [Register Now!](#)

2. Walk In Option

While scheduled appointments will have first priority, walk-ins will be allowed if a seat is available and if there is sufficient time remaining for the chosen test to be completed prior to the testing lab closing for the day. For information regarding specific assessments, please refer to the individual assessment information pages.

**\*Not all tests are eligible for walk-in scheduling due to the nature of the test requirements.**
