## SWOOP SAYS:

CTC faculty and staff expect all students to be aware of information sent to student email accounts. If a message is sent to your CTC inbox, the college assumes that you have read it and understand it.

Please make sure you are informed by using your student email account on a daily basis.

As part of CTC's reaffirmation of accreditation process, the college has created the Educational Master Advising Plan (eMAP). Through the plan, CTC will formalize academic advising to support student success, graduation, and attainment of educational and career goals. Students will be empowered to take charge of their educational careers by sharing responsibility with their academic advisors for developing educational plans that are compatible with career aspirations. The first eMAP pilot group began Spring Semester 2014. The complete implementation will occur over five years and will impact all CTC students. Click on the eMAP logo on [www.chattahoocheetech.edu](http://www.chattahoocheetech.edu) for more information.
