

Electrical Safety

Chattahoochee Technical College offers safety training packages that are intended to provide a variety of training to employees with some level of responsibility for safety in the workplace. Each course can be customized to fit your specific needs in regards to location and schedule. Our Electrical Safety and Arc Flash 8-hour course is designed for individuals who have not completed an electrical safety or arc flash training while our 4-hour course provides a refresher option for individuals who have. Participants will gain an understanding of OSHA 1910 Subpart S and National Fire Protection Agency 70E. Upon successful completion, participants will receive a certificate of completion from Chattahoochee Technical College.
