

## Technical Specialist Certificate & Interdisciplinary Studies AAS-Business Sciences Track

To use this program guide effectively, you must access your DegreeWorks and speak with an advisor.

Questions to ask yourself:

**“What college are you thinking of transferring to?” “What are you going to study there?” “Have you checked out that college’s transfer requirements?”**

Considerations while attending CTC:

- Most 4 year colleges will require two History classes, Political Science, a year of Freshman Composition, and at least one Humanities/Fine Arts class.
- How much English/Humanities/Fine Arts? English 1101, 1102, a Lit class, & a course in THEA, ARTS, MUSC, etc.
- More Math? Is taking College Algebra really going to fulfill my Math core? Will I need Pre-Calculus, Calculus, and/or Statistics?
- Does the college I want to go to require a foreign language? If so, Spanish is offered @ CTC!
- Does the college I want to go to require a Communication COMM1100 or Public Speaking SPCH 1101 class? If so, both are offered @ CTC!
- Does the college I want to go to require Economics? If so, Economics is offered @ CTC!
- Can I get my Sciences done at CTC? Biology 1111/1112/2107/2108? CHEM 1151/1152/1211/1212? PHYS 1110/1111/1112?
- COMP1000/COMP 1500 may transfer, so I should check before taking this class!
- Learning Support courses (00 courses) do not transfer.

\*\*\*Transfer credit is always at the discretion of the receiving institution.\*\*\*

**Please note: As an Interdisciplinary Studies student, the information reflected in DegreeWorks is more generalized and may not reflect your individualized academic plan you have created with your advisor.**

**This program guide, along with meeting regularly with your advisor and using DegreeWorks, will help you stay on track to finish your program as quickly as possible and graduate from CTC.**

**Please review the appropriate Pathway on page two so you can receive either a:**

- ✓ \*\*\*Technical Specialist Certificate with a Business Communication Specialization after completion of 36 hours (\*does not include Learning Support)
- ✓ \*\*\*Interdisciplinary Studies Associate of Applied Science Degree after completion of 61 hours (\*does not include Learning Support)
