

## March 11, 2020 – Online Course Proctored Events

Chattahoochee Technical College requires at least one proctored event in all online courses. That proctored event may be an examination, a presentation, a group project, a departmental assessment, or other graded assignment.

Chattahoochee Tech is trying to mitigate exposure risk to COVID-19 for all faculty, staff, and other personnel. For the remainder of Spring Semester 2020, the proctored events in all online classes will take place electronically rather than on a Chattahoochee campus or other physical location.

Students receiving accommodations via Disability Services should work closely with the personnel in that office to determine how best to ensure success on these assignments.
