[Wendy Matthis] You'd be surprised at how many students aren't aware of all of the services in the academic advising department.

[Corey Cantrell] Advisors are here to guide, empower, and teach students to achieve their educational goals from orientation to graduation.

[James Moore] Well, there are a number of reasons students seek advising. Most- The most common reason is because they are wanting to know what classes do I take next.

[Corey Cantrell] Every student has a specific advisor. Academic advisors are assigned based on program of study.

[Wendy Matthis] Students should meet with their specific academic advisor to ensure that they have the most up-to-date information, regarding any program changes, or any new classes, or anything new that they need to know about their program.

[James Moore] I would say students need to meet with their advisor at least once every term.

[Michelle Martin] Meeting with your academic advisor on a regular basis will ensure that you finish your program in a timely manner. Advisors meet students where they are, so we can meet them in person, virtually, or over the phone.

[Corey Cantrell] We're also available via chat and via text, through our advising answers system.

[James Moore] There's just all sorts of things on the website. If you just explore the website, there are all kinds of nice things there.

[Michelle Martin] Visit our website for more information about academic advising and how to connect with your advisor.
