[Rockfield D'Amour] The Academic Success Center is the home of student resources at Chattahoochee Technical College. Our mission is to make sure that all students receive resources, training, confidence, so that they can continue and be successful here at Chattahoochee Technical College.

[Kim Proulx] The Academic Success Center is a place where the students can come and get tutoring, work on the computers, access the internet, or just have some study space.

[Lynn Kittrell] In the Academic Success Center, students can meet with professional tutors for one-on-one tutoring sessions. We have former teachers, instructors, doctors, and other professionals who have a genuine interest in the success of our students.

[Rockfield D'Amour] We cover English, Math, Anatomy and Physiology, other science classes, Economics and Accounting. For subjects we don't support online or on campus, we provide our students with Net Tutor. Net tutor will cover social sciences, health sciences, and computer information technology for students.

[Kim Proulx] Tutoring appointments are available for our students if they choose to make them, they just have to visit us on our web page, click on the Bookings link, and then select the campus of their choice and the subject.

[Lynn Kittrell] When students first enter, they have to login through the computer. They give us their 900 number and let us know the area in which they need help.

[Rockfield D'Amour] Success Center answer is a communication platform that allows our students to talk to the center leads directly. It provides you an area with an FAQ, the ability to see questions that have been asked previously about the center and about our services in the Academic Success Center.

[Kim Proulx] We're here to help our students. So, if there's anything you ever need, feel free to contact us through success.centers@chattahoocheetech.edu.

[Rockfield D'Amour] Thank you for taking the time out to view this video. We hope to see you soon.
