

Health Care Management Program

Are you skilled in organization?
Have you held a leadership position?
Do you have experience in health care?
If you answered yes to any of these questions, then Health Care Management may be a great career for you!

What do Health Care Managers do?

They plan, direct, and coordinate the business activities of healthcare providers. Duties may include managing the revenue cycle, compliance regulations, human resources, health information, marketing and business relationships.

Where might they work?

Health Care Managers find employment in a variety of locations: medical offices, dental offices, chiropractic offices, insurance companies, outpatient clinics, and surgical centers.

Program information can be found on our HCM [webpage](#) or emailing the program director at
