

Prepare for takeoff

Steps to apply for the Aviation Maintenance program

1. Apply to Chattahoochee Tech and choose Technical Studies AAS (TS23) as your major code with a concentration of Aviation Track.
2. Follow the steps to be admitted to the college through the Office of Admissions.
3. Points for admission into this program will be awarded as outlined on the “*Aviation Maintenance Technology Programs Admissions Requirements*” document. While registered in the Technical Studies AAS, you will be allowed to take any of the pre-admission courses that count for admissions points into the program, contingent on available space.
4. Prior to the term when you would like to begin the Aviation Maintenance program, attend an information session. In that session you will receive instructions for finalizing your application materials for the upcoming term.
5. Acceptance into the A&P program will be communicated after the program application deadline for each upcoming term.

A&P application packets must be completed for Fall by Friday, July 18; Fall cohort will be a day class

A&P application packets must be completed for Spring by Friday, October 10; Spring cohort will be an evening class
