Sole Treatment 1-hr \$25

Treat your feet—and your entire body—to the healing benefits of Reflexology Foot Therapy. This holistic treatment targets pressure points in the feet that correspond to organs and systems throughout the body, helping to alleviate tension, enhance circulation, and restore balance. Gentle, targeted touch promotes relaxation while supporting the body's natural healing processes.

Shirodhara 1-hr \$25

This ancient Ayurvedic therapy uses a gentle stream of warm herbal oil over the forehead and scalp to calm the mind and nervous system. Paired with a soothing massage of the scalp, neck, and shoulders, Shirodhara promotes deep relaxation, mental clarity, and emotional balance.

Post-Treatment Shower & Hair Care

Your treatment includes access to a shower to shampoo your hair afterward; however, please note that your hair will not be completely free of oil after just one wash. The treatment involves warm herbal oil poured over the forehead and scalp, saturating the hair for deep nourishment.

For optimal results, many opt to leave the oil in for several hours or even overnight. If you do wish to remove it right away, we recommend applying shampoo *directly to dry hair* before rinsing—this helps break down the oil more effectively. At home, multiple washes may be necessary to cleanse the hair thoroughly. Be mindful that the shower floor may become slippery due to residual oil.
